

Pluriaudit celebrates an important double anniversary

Innovation and evolution marked by continuity

A double anniversary for Pluriaudit Sa, a company specialized in corporate audit and advisory services in Lugano. In 2018 it in fact celebrates both the fortieth year from when Pluriservice Fiduciaria Sa was founded in 1978 as well as the fourth from when it was re-established by the new share-

holders in September 2014. "With the new company name and new logo we wanted to foster continuity with the past (Pluri) and mark the change issuing from our business focus in the field of audits and corporate advisory service (Audit) - explains the President Sandro Prospero -, Pluriaudit has therefore started anew to satisfy new demands from

the market in an efficient manner. Being dynamic in a world in continual evolution is the only way to be proactively part of the game." The company presents itself on the prestigious Ticino economic market, certain to succeed in offering its clients a first class service, personally provided by experts with considerable experience and at

competitive terms.

"Our priority is to understand our client's requirements and satisfy them with a service appropriate for the dimensions, sector and particular nature of each single situation. In providing our services we apply the principles of reliability, competence, independence and confidentiality and with their professional skills, practical experience and knowledge of languages our experts put us in the position to rapidly and flexibly satisfy the requirements coming from our clients throughout Switzerland. We promote continual, transparent communication and our goal is to establish a profitable long-term collaboration."

With the same philosophy, in early 2018 Pluriaudit created Jurisaudit, a sister company in Zugo replicating the model with a physical presence in German Switzerland as well. At Pluriaudit they do not offer advice of a fiscal or bookkeeping nature, but operate in the field of governance, risk management, compliance, evaluation, due diligence and strategic analysis. Sectors, therefore, more than ever requiring excellent competence.

And it is exactly the professional wealth of experience gained by the four partners to be the first factor laid on the table as a guarantee. Pluriaudit is the professional finish line after years of education and learning in the big four, that is to say the four audit and advisory companies sharing the reference market between them. The same services, therefore, and same quality but with a more personalized, flexible approach and in a more competitive manner.

Amongst the members of the company, President Sandro Prosperti boasts over twenty years of experience in the field of external and internal audit, corporate consultancy, Governance Risk & Compliance at audit and advisory companies and leading banks in Switzerland and abroad. Already lead auditor, recognized by Finma, to audit banks and security dealers, he is currently head auditor, in compliance with

1 FRANCESCO SERTORI
AND SANDRO PROSPERI

2 GIULIO GRAZZI
AND TUMASCH PITSCH

LiCol, for auditing providers and distributors of collective capital investments, as well as auditing tutor at Centro Studi Bancari in Vezia. Giulio Grazzi, with a degree at Bocconi University and with over 10 years experience in audits and consultancy, is today primarily specialized in the industrial and manufacturing, fashion and trading sectors and in Otas (Online travel agencies). Francesco Sertori, specialist in finance and accountancy, has many years of experience in investigations of a criminal economic nature and in financial enquiries held by the federal police office, as well as in bookkeeping at companies in a

leading Swiss bank.

Tumasch Pitsch completes the list of the four partners, specialized in auditing of accounts and in control of companies operating in the financial sector (banks, security dealers, market makers, asset managers), with respect to the regulatory provisions on money recycling and to the distribution of collective capital investments, as well as consultancy in the field of Corporate Governance, Risk Management and Compliance.
